

# Networking Event and A.G.M

## 4.30-6.30pm Wednesday 27 January 2010

### Banks's Stadium, Walsall WS1 4SA

You are invited to join us at our first networking event in 2010 where we will be bringing you a taste of India.

Our AGM/Networking event will highlight the international trade opportunities with India and will include speakers who have extensive experience of trading with the sub-continent, as well as useful information from the India Tourist Board. We are delighted that Mr C Gururaj Rao, Consul General of India, Birmingham will make the keynote speech.

India is one of the fastest growing economies in the world, with its major businesses now investing heavily in European markets. There are immense opportunities for UK businesses in India in sectors ranging from manufacturing and infrastructure through retail to life sciences and energy. The UK has strong ties with India, there is a similar legal system and UK companies are well positioned to take advantage of this growing export and investment market.

The AGM will be open to both members and non-members of MWTF as we are especially keen to develop stronger links with the Asian businesses in the region to make the community aware of what MWTF has to offer in terms of assisting their international trade activities.

We will also be unveiling our MWTF Ambassadors, who will be working with us to advocate the benefits of MWTF membership and the important role exporting plays in the regional economy. AGM formalities will be kept to a minimum.

This event is free to attend so please join us for a pleasant and informative couple of hours. Hot food will be served and there will be a cash bar.
